## **SEPTAGE HAULERS:**

We have updated our Permit Application and the requirements for attaining a permit. We made these changes to clearly outline our requirements to ensure the safety and proper discharge of waste materials. Please review carefully, the permit application and attachments.

### **What do you need to do?**

1. All Haulers, NEW and Renewing MUST complete the Application and return to Integra Water Creola.
2. The permit fee of \$125 is due with application.
3. Provide proof of required insurance coverages (Comprehensive General Liability and Vehicle Liability) - Name Integra Water Creola, LLC as an additional insured on the Comprehensive General and Vehicle Liability policies.
4. For each Hauler Vehicle, provide the license plate number, chassis make, year, cab color, tank color, and capacity in gallons, ID number, and a photograph of each vehicle.
5. Ensure each vehicle is clearly marked with tank capacity clearly labeled on the exterior of the tank or vehicle.

Once we have received the application, proof of insurance and hauler vehicle identification packet, we will issue a **NEW** permit with a Permit ID Number. We will email and mail the permits to you. This permit and ID number will need to be displayed in each Hauler Vehicle.

If you have any questions or concerns, please contact Bill Vaughn , Integra Water Creola Operator, at 251-272-0911.
